DETAILED ACTION

Claims 1-62 are pending in the application.

Election/Restrictions

Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-5, drawn to products, classified in class 548, subclass
~~453~~^{302.7}
- II. Claims 6-15, drawn to a method, classified in class 514,
various subclasses.
- III. Claims 16-19, drawn to methods, classified in class 514,
various subclasses.
- IV. Claims 20-23, drawn to a method, classified in class 514,
various subclasses.
- V. Claims 24-31, drawn to a method, classified in class 514,
various subclasses.
- VI. Claims 32-36, drawn to products, classified in class 546,
subclass 113+.

- VII. Claims 37-46, drawn to a method, classified in class 514,
various subclasses.
- VIII. Claims 47-50, drawn to a method, classified in class 514,
various subclasses.
- IX. Claims 51-54, drawn to a method, classified in class 514,
various subclasses.
- X. Claims 55-62, drawn to a method, classified in class 514,
various subclasses.

The inventions are distinct, each from the other because of the following reasons: the products of Group I and Group VI differ materially in structure and element so much so as to be patentably distinct. In addition, a reference which anticipates one group may not even render obvious the other. Additionally, the products of Group I can be used in materially different processes of using such as the method of Group II or the method of Group III, etc.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the search required for Group I, for example, is not required for Group VI, restriction for examination purposes as indicated is proper.

Additionally, an election of a single disclosed species {ie., Example number, page number and structural depiction} is required from whichever group is elected.

Moreover, whatever specific compound is ultimately elected, applicants are required to list all claims readable thereon.

A telephone call was made to Joshua B. Goldberg on July 25, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

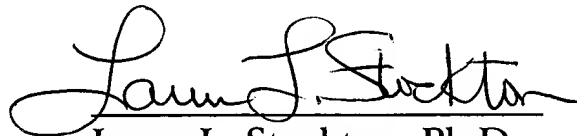

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

It is suggested that in order to advance prosecution, the non-elected subject matter be canceled when responding to this Office Action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura L. Stockton, Ph.D. whose telephone number is (703) 308-1875.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-1235.
